PRODUCT CATALOGUE

PU DISPENSING MACHINE

— FOR HEPA FILTER —

WHY CHOOSE THIS MACHINE

PLC CONTROLLED

Advanced automation for consistent performance

VARIABLE MIX RATIO

Flexible mixing ratios
100:05 to 100:100

PRECISE DISPENSING

High accuracy & repeatability
for superior sealing

AUTOMATIC LOADING

Continuous & efficient
material loading system

VACUUM CAPABILITY

Bubble-free dispensing
for high-quality output

MULTIPLE PUMP OPTIONS

Gear / Progressive Cavity /
Piston Pump

ROBOTIC EPOXY POTTING MACHINE

— FOR AUTO COMPONENTS —

WHY CHOOSE THIS MACHINE

PLC CONTROLLED

Advanced automation for consistent performance

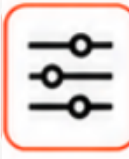

GEAR PUMP TECHNOLOGY

Reliable gear pump for stable and consistent flow

AUTOMATIC MATERIAL LOADING

Efficient & operator-friendly loading system

VARIABLE MIX RATIO

Flexible mixing ratios
100:20 to 100:35

STATIC MIXER

Static mixer for uniform and bubble-free mixing

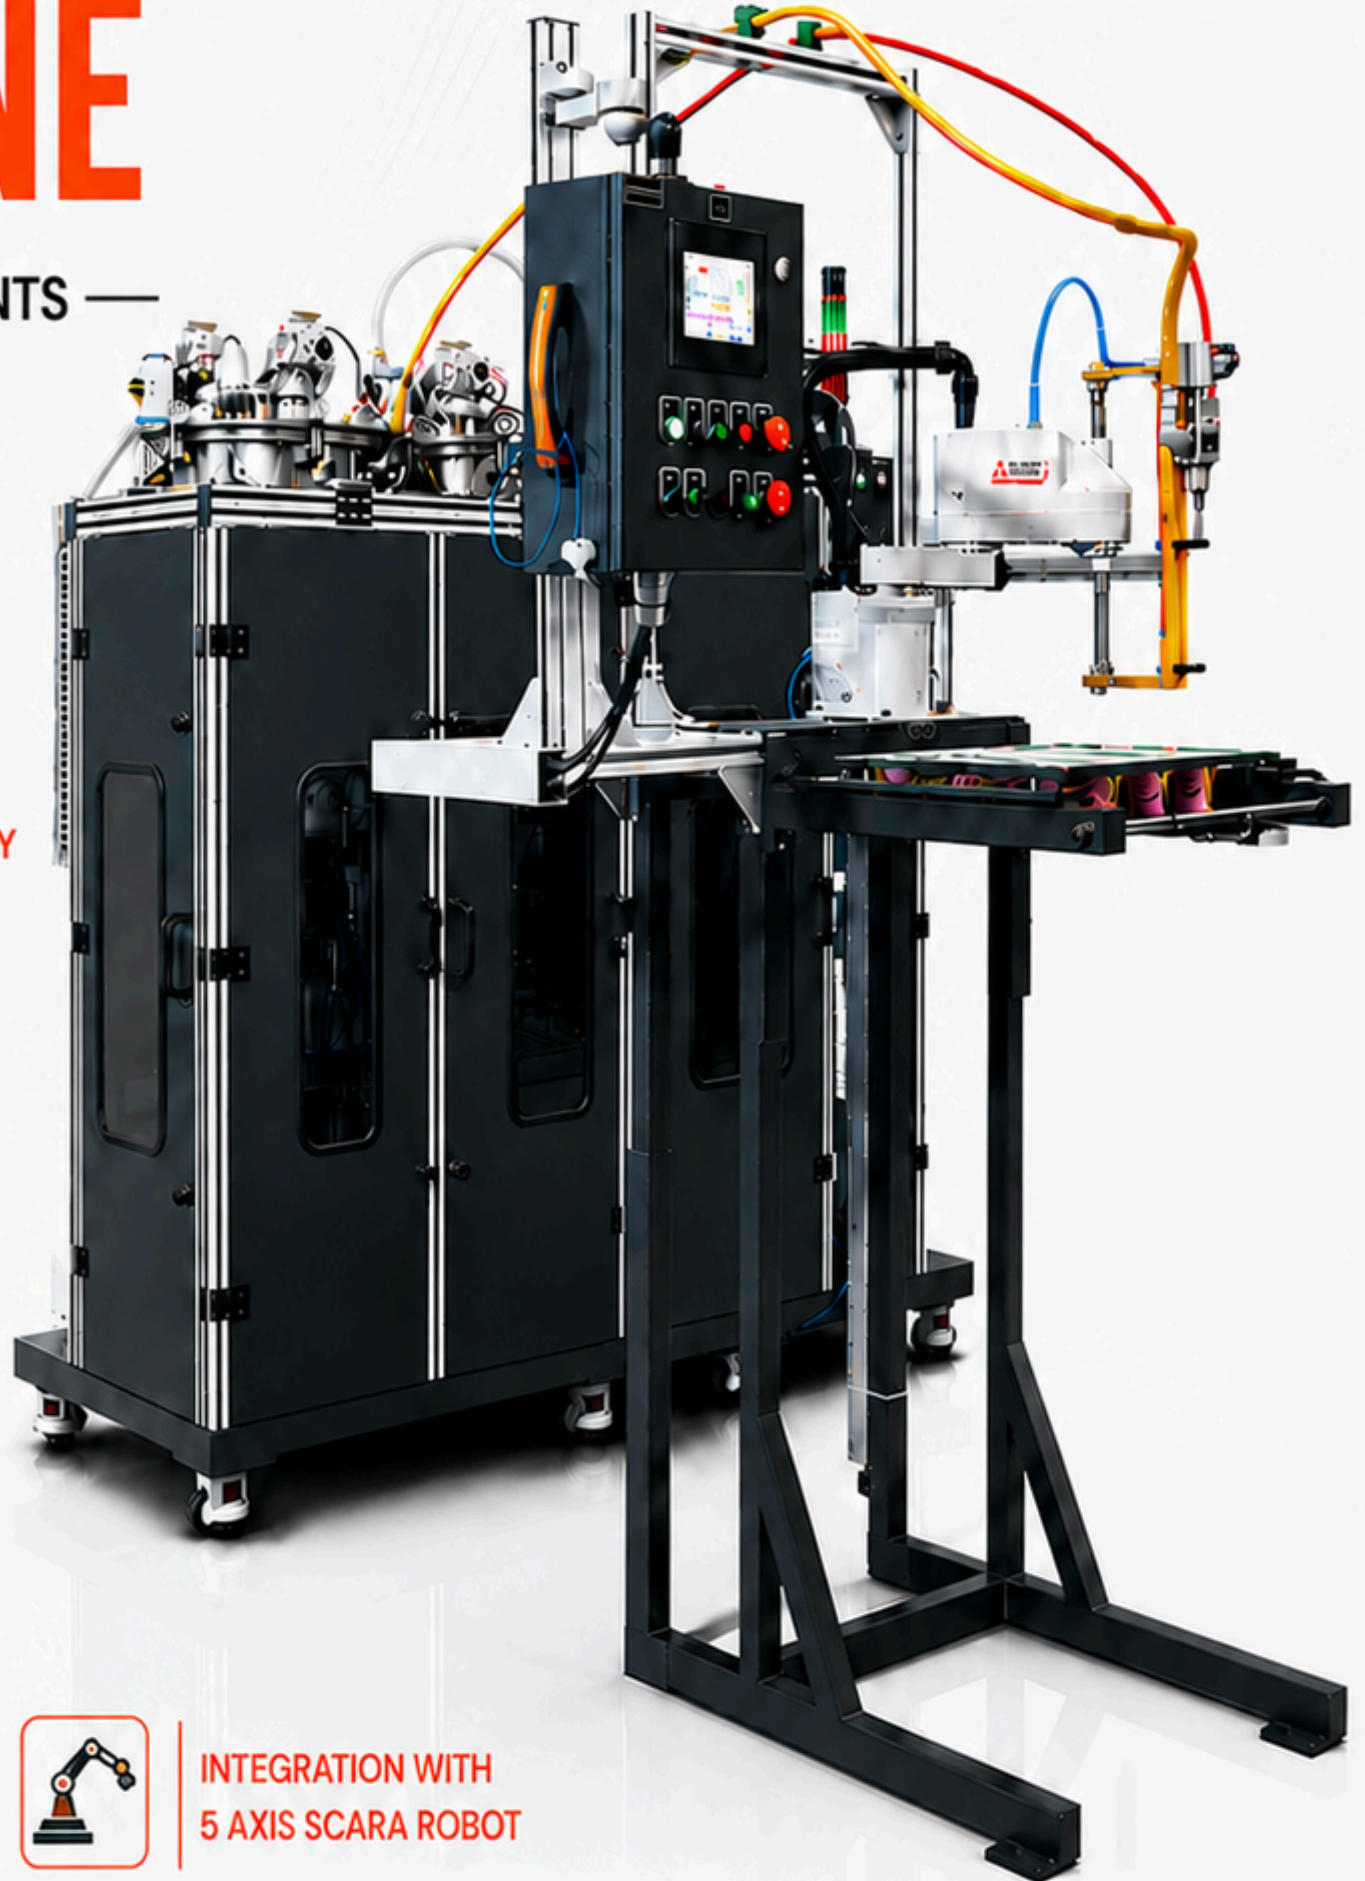

PRECISE FLOW RATE

2 gm/sec - 10 gm/sec
for accurate potting

INTEGRATION WITH
5 AXIS SCARA ROBOT
